Research Methods in Engineering Education

EGS 6012, Section EED

Class Periods: W | Period 5 – 7 (11:45AM – 2:45PM)

Location: WERT 360 Academic Term: Spring 2025

Instructor:

• Idalis Villanueva Alarcón, Ph.D. i.villanueva@ufl.edu

Office Hours:

- Tuesdays (virtual) from 1pm to 2pm: https://ufl.zoom.us/j/92369655426?pwd=TGxVSmRvbWx0N0NHVHBJbnk1dDB1UT09&from=addon
- By appointment

Teaching Assistant/Peer Mentor/Supervised Teaching Student:

None.

Course Description:

• Introduce basic principles and practices of quantitative, qualitative, and mixed method research methods used in engineering education research. (3 credits)

Course Pre-Requisites / Co-Requisites:

None

Course Objectives:

- Understand the differences and applications for quantitative, qualitative, and mixed research methods.
- Demonstrate ability to analyze quantitative data using statistical analysis.
- Demonstrate ability to analyze qualitative data using a qualitative analysis approach.
- Gain knowledge of the process of creating and conducting a research proposal using one of the methods discussed during the semester.
- Apply course material to a student-generated research question using one of the methods discussed during the semester.

Disclaimers and Course Expectations: Can be found in and will be discussed in Canvas.

Materials and Supply Fees:

None

Required Textbooks:

Note: You may be able to find some of these older versions in Online Thrift Book stores for a cheaper price. a. Research Methods, Design, and Analysis (12th edition; used books are fine): Christensen, Johnson, Burke, Turner: ISBN-9780205961252

Research Methods, Design, and Analysis (12th Edition): Christensen, Larry B., Johnson, R. Burke, Turner, Lisa A.: 9780205961252: Books - Amazon.ca

b. The Coding Manual for Qualitative Researchers by Johnny Saldaña (3rd edition, paperback version; used books are fine): <u>The Coding Manual for Qualitative Researchers: Saldana, Johnny: 9781473902497: Books</u> - Amazon.ca

c. Designing and Conducting Mixed Methods Research (2nd edition) by John W. Creswell and Vicki L. Plano Clark Amazon.com: Designing and Conducting Mixed Methods Research: 9781412975179: Creswell, John W., Plano Clark, Vicki L.: Books

Required Software:

Free for students via UF Apps: <u>UFApps (ufl.edu)</u>. You will need to install Citrix Receiver first and may need to coordinate with the IT representative of your department or college to get administrative approvals.

- a. SPSS Statistics (UF apps) or Excel if the program does not work
- b. MAXQDA (UF apps) or Excel if the program does not work

Note: Instructional materials for this course consist of only those materials specifically reviewed, selected, and assigned by the instructor(s). The instructor(s) is only responsible for these instructional materials. The selection of the materials for this course may include resources, software, examples, and content that does not necessarily reflect the personal views and beliefs of the instructor. However, the resources do provide foundational information that will be important to your ability to fulfill the course learning objectives.

Recommended Materials:

None

Tentative Course Schedule:

Note: Any changes to this schedule will be discussed in class and reflected in Canvas.

Week	Course Topic & Brief	Recommended Readings	Assignment/
	Description	(Any additional readings will be posted in Canvas)	Project
	(Any additional changes will be posted in Canvas)		(Changes will be reflected in Canvas)
PART I: Brief Overv	view of the Foundations of Engine	eering Education Research	regreered in currus)

1.7	Open Work Time for Final	No readings	Final Project:
15 (Apr 30, 2025)	Project		Due May 1,
			2025 at
			11:59pm in
			Canvas

Attendance Policy, Class Expectations, and Make-Up Policy:

This course is interactive so attendance in expected. Excused absences must be in compliance with university policies in the Graduate Catalog

(<u>http://gradcatalog.ufl.edu/content.php?catoid=10&navoid=2020#attendance</u>) and require appropriate documentation.

Evaluation of Grades:

Assignment	Percentage of Final Grade
Assignments	40%
Final Project	30%
Discussion Board	16%
Peer-Evaluation of Group Contributions	5%
In-Class Participation	5%
Bonus (TBD)	4%
	100%

Required and Supplemental Readings:

Due to the nature of the course and the large amount of content to cover, there will be a set of required readings prior to the lesson that you are very strongly encouraged to read. While I will do my best to cover as much content as I can in class, there may not be sufficient time to go through all the important items you need for this course. As such, supplemental readings are provided as <u>optional</u> readings and to support any assignment, discussion board, or project during the course. Both readings should serve as a resource for you as needed. Additional details are provided in Canvas.

Assignments:

There will be a total of four assignments, each aimed to support a better understanding of the content and components of the final project. The assignments are either individual or group-based. Each assignment will reflect the parts of the course covered under both qualitative and quantitative methods. On average, assignment due dates will be between 2-5 weeks of its release date.

Final Project:

The purpose of the group final project is to help you see the larger picture of the role that Research Methods in Engineering Education play on the overall research design, data collection, data analysis, and interpretation of its findings. Also, this final project aims to help your team and you to establish connections between the learned content and the procedures involving quantitative and qualitative research methods. The project will ask your group to extend a research design process in either a multi-, mixed-, or multi-modal study. Additional details are provided in Canvas.

Discussion Board:

During set times in the course, a discussion board will be presented to students to respond to questions connected to the learned course content. It is expected that you post one original comment and comment on at least one other person's comments. Additional details are provided in Canvas.

Peer-Evaluation:

At the end of the semester, you may be provided with a short questionnaire that will only be visible to me about your evaluation of the group members you have been assigned to in the semester. If there is consensus that a member of the group did not contribute to the group work or final project, up to a letter grade may be deducted from the final course grade! Additional details are provided in Canvas.

In-Class Participation:

It is expected that students in the class will participate, inquire, and complete course activities with a respectful attitude to learn and grow. In class participation will be taken for every class. There may be instances where the class may be conducted virtually. Said classes will be announced in Canvas.

Bonus (optional):

Counted as an optional bonus, a pre-assessment will to be used primarily to assess course expectations and needs as well as to determine group pairing for designated assignments and projects in the course. This pre-assessment will not be used for any other purpose. Around the middle of the semester, a check-in assessment will be provided for the purpose of course improvement in future semesters and to address any potential concerns about the existing course. The check-in assessment will be anonymized and solely to be used for course improvement. This will be counted as part of your bonus. A portion of this bonus will go towards completion of the Gator Evals (see below). If over 70% of students complete the Gator Evals, a bonus grade will be added (TBD). Students will be notified when the 70% completion rate is reached.

Late Submissions:

While the course deliverables have been created to allow for sufficient time to complete the tasks, sometimes things happen that is outside of your control. I get it. Life happens.

For this reason, I have included a three-day grace period for every course deliverable. To ensure that this process is applicable equitably to all students, any late submissions past the original deadline will undergo a 10% penalty to the course deliverable grade.

Grading Policy:

Percent	Grade	Grade Points
90.0 - 100.0	A	4.00
87.0 - 89.9	A-	3.67
84.0 - 86.9	B+	3.33
81.0 - 83.9	В	3.00
78.0 - 80.9	B-	2.67
75.0 - 77.9	C+	2.33
72.0 - 74.9	C	2.00
69.0 - 71.9	C-	1.67
66.0 - 68.9	D+	1.33
63.0 - 65.9	D	1.00
60.0 - 62.9	D-	0.67
0 - 59.9	Е	0.00

For this course, no grade-grubbing is allowed at any point of the course. You may request a grade adjustment if there was a genuine mistake identified during grading but no extra credit or raising of grades simply because you would like a better grade to be granted.

It is important that you put your best effort forward in the course. More information on UF grading policy may be found at: http://gradcatalog.ufl.edu/content.php?catoid=10&navoid=2020#grades

Course Disclaimer and Expectations:

In the EGS 6012 course shell there will be disclaimers and expectations that will be mutually agreed upon and discussed during the first 3 weeks of class. We will discuss, clarify, or add any needed item. Upon agreeing, I will date and stamp this to be used for future reference in the spring 2025 semester. This will mark an agreement between the students and instructor and will set the precedent for the remainder of the course.

Gen-AI:

With the advent of Gen-AI tools such as ChatGPT and others, it may be tempting to want to rely on these tools for context, grammar, and content. While I cannot stop you from engaging in said activities, I ask that you use these tools in a limited manner and in a small capacity for the sole purpose of fact-checking, identifying inaccuracies, or inspiring ideas. One of the caveats of this research methods course is that you are both a researcher and a participant. This means that your unique experiences and voices are just as important as the process of communicating these processes and experiences. If you submit an assignment, project, discussion board, or any other course material, please be transparent about what you used Gen-AI in (e.g., highlighting the content generated from Gen-AI) and document with evidence its use (e.g., screenshots with timestamps). Furthermore, you will need to include in said material, the reason why you used Gen-AI tools and how you abided by the course integrity rules and instructor guidelines. In the same manner, if I use these tools, I will be transparent with you and show you proper documentation too.

Use of Course Materials:

It is my expectation that you do not use the provided example data or any content of this course for your personal gain (e.g., publications, dissertation, presentations) but rather for your educational growth and

development. In the same vein, the material that I have developed for this course is UF's and my intellectual property. You are not permitted to download a copy of my instructional material or share with others without my expressed, written consent at any point in time during or after the class. A template of the permission letter has been provided on Canvas.

Students Requiring Accommodations

Students with disabilities who experience learning barriers and would like to request academic accommodations should connect with the disability Resource Center by visiting https://disability.ufl.edu/students/get-started/. It is important for students to share their accommodation letter with their instructor and discuss their access needs, as early as possible in the semester.

Course Evaluation

Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at https://gatorevals.aa.ufl.edu/students/. Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via https://ufl.bluera.com/ufl/. Summaries of course evaluation results are available to students at https://gatorevals.aa.ufl.edu/public-results/.

University Honesty Policy

UF students are bound by The Honor Pledge which states, "We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: "On my honor, I have neither given nor received unauthorized aid in doing this assignment." The Honor Code (https://sccr.dso.ufl.edu/policies/student-honor-code-student-conduct-code/) specifies a number of behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obligated to report any condition that facilitates academic misconduct to appropriate personnel. If you have any questions or concerns, please consult with the instructor or TAs in this class.

Commitment to a Safe and Inclusive Learning Environment

The Herbert Wertheim College of Engineering values broad diversity within our community and is committed to individual and group empowerment, inclusion, and the elimination of discrimination. It is expected that every person in this class will treat one another with dignity and respect regardless of gender, sexuality, disability, age, socioeconomic status, ethnicity, race, and culture.

If you feel like your performance in class is being impacted by discrimination or harassment of any kind, please contact your instructor or any of the following:

- Your academic advisor or Graduate Program Coordinator
- Robin Bielling, Director of Human Resources, 352-392-0903, rbielling@eng.ufl.edu
- Pamela Dickrell, Associate Dean of Student Affairs, 352-392-2177, pld@ufl.edu
- Toshikazu Nishida, Associate Dean of Academic Affairs, 352-392-0943, nishida@eng.ufl.edu

Software Use

All faculty, staff, and students of the University are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against University policies and rules, disciplinary action will be taken as appropriate. We, the members of the University of Florida community, pledge to uphold ourselves and our peers to the highest standards of honesty and integrity.

Student Privacy

There are federal laws protecting your privacy with regards to grades earned in courses and on individual assignments. For more information, please see: https://registrar.ufl.edu/ferpa.html

Campus Resources:

Health and Wellness

U Matter, We Care:

Your well-being is important to the University of Florida. The U Matter, We Care initiative is committed to creating a culture of care on our campus by encouraging members of our community to look out for one another and to reach out for help if a member of our community is in need. If you or a friend is in distress, please contact umatter@ufl.edu so that the U Matter, We Care Team can reach out to the student in distress. A nighttime and weekend crisis counselor is available by phone at 352-392-1575. The U Matter, We Care Team can help connect students to the many other helping resources available including, but not limited to, Victim Advocates, Housing staff, and the Counseling and Wellness Center. Please remember that asking for help is a sign of strength. In case of emergency, call 9-1-1.

Counseling and Wellness Center: http://www.counseling.ufl.edu/cwc, and 392-1575; and the University Police Department: 392-1111 or 9-1-1 for emergencies.

Sexual Discrimination, Harassment, Assault, or Violence

If you or a friend has been subjected to sexual discrimination, sexual harassment, sexual assault, or violence contact the <u>Office of Title IX Compliance</u>, located at Yon Hall Room 427, 1908 Stadium Road, (352) 273-1094, <u>title-ix@ufl.edu</u>

Sexual Assault Recovery Services (SARS)

Student Health Care Center, 392-1161.

University Police Department at 392-1111 (or 9-1-1 for emergencies), or http://www.police.ufl.edu/.
